DETAILS

The Summer School on Sustainable tourism is organized in two weeks:

- 1° week from 5° of September to 9° of September
- 2° week from 12° of September to 16° of September

Attendance is mandatory for minimum 80%.

OBJECTIVES

Objectives:

UniAdrion Summer School on Sustainable Tourism aims at introducing students to the concept of sustainability and sustainable development in the tourism and hospitality sectors. The course meets the increasing demand for the use of creativity and innovation to address development challenges and reach the SDGs goals. Students will develop the ability to critically evaluate the impacts of tourism development on the Adriatic-Ionian Region natural resources and the local community. The natural and cultural environments of communities and destinations will be explored to enable students to critically interpret the changes and development of domestic and international tourism policy and train them on possible solutions to overcome crises.
